Днепропетровская 84, 8 ap, 3 floor, 140000, Павлодар, Kazakhstan

About me:

I always strive to learn everything as much as possible. I am hardworking and ready to achieve the goals that will be set before me. I am very motivated for new achievements and I want to get an unforgettable experience no matter what it is

WORK EXPERIENCE

30/09/2019 – 22/10/2020 – Pavlodar, Kazakhstan

STUDENTS ASSISTANT – NAZARBAYEV INTELLECTUAL SCHOOL

My job was to explain to the students of grades 7-8 the topics previously passed with their main teacher. I was pretty good at physics and mathematics, so after my classes, I held an hour and a half class in subjects where students asked their questions about the topic and the theory that they did not catch. In addition to pulling up students who found the subject difficult, I also engaged in the early preparation of students for Olympiads. That is, students who wanted to take part in the Olympiads in physics and mathematics came to me to pass the topics of high school.

LANGUAGE SKILLS

Mother tongue(s): **KAZAKH**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
RUSSIAN	C2	C2	C2	C2	C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

HONOURS AND AWARDS

19/03/2018

Scientific patent – National Institute of Intellectual Property

The patent was obtained for a project that I, two students from my school and our supervisor received for our idea. The idea was to use a harmful plant in our region as an alternative type of energy. It gave me a lot of opportunities and made a lot of connections in the scientific community. I have gained invaluable experience, which I am sure will be useful for me in the future and will definitely be my advantage.

● VOLUNTEERING

10/09/2018 – 22/10/2020

Volunteer

Pavlodar

In our school there was a club for the most initiative students who somehow wanted to help and support people who found themselves in a difficult life situation. For example, the most memorable event for me was a trip to a nursing home, where we supported our older generation all day and they also taught us a lot there and told us a lot about their own and about life in general.

● DRIVING LICENCE

Driving Licence: B | 11/08/2020 – 10/08/2030

● RECOMMENDATIONS

Nursultan Zhakupov – Teacher of physics – zhakupov_n@pvl.nis.edu.kz – (+7) 7056131706

To provide at the place of the request

The recommendation was given to Shaimuran Alisher, a student of the 12th "C" class of the Nazarbayev Intellectual School of Chemical and Biological Direction in Pavlodar.

● HOBBIES AND INTERESTS

Basketball

Besides education, sport is also one of the most significant parts of my academic life. I have played chess for 3-4 years at elementary school and started to get involved in basketball team at high school. Basketball taught me to feel the spirit of a strong team, to be confident, powerful, communicative, respectful and concentrated on own goals during the game. At school, I always tried to attend every basketball training and to develop my skills to feel sure of victory. In the 11th academic year, our basketball team took second place in Kazakhstan among other schools. Eventually, I understood that team sports trained me a strong will and to work trusting of other companions.

● PROJECTS

2017 – 2018

Biofuels, which are part of plant raw materials, are an alternative energy source

<https://docs.google.com/document/d/15W-SIQ33AZFdYb4K7w9ywVAqOhDL2i4S/edit?usp=sharing&oid=104619660095864221616&rtpof=true&sd=true>

Project that me and my mentor wrote in my 10th academic year

● PUBLICATIONS

Research paper "Biofuels from plant raw materials as an alternative energy source"

International competition of school students' research papers "Research start 2019/2020"

<https://eee-science.ru/item-work/2020-3203/> – 2020

An international project competition in which I managed to participate and it gave me a lot of confidence in myself and my capabilities. The project on which I spent a lot of my free time during the 11th grade was published and received a lot of positive comments from the scientific community.
